

LILLARD FLY FISHING CONSERVATION FUND

OUR MISSION:

The Lillard Fly Fishing Conservation Fund aims to enrich the lives of teenagers by immersing them in group, wilderness educational settings. The LFFCF also seeks to enhance communities by both providing direct, targeted grants to conservation efforts and community projects and by self-performing projects in communities.

WHO WE ARE:

LFFCF is a leader in the environmental education and conservation non-profit space. Partnering with Lillard Fly Fishing Expeditions, we create opportunities for teenagers to learn to fly fish. Additionally, LFFCF awards grants to projects working to protect and conserve the place where we fish.

OUR IMPACT:

With many decades of combined experience in the world of fly fishing, we've fostered strong relationships with individuals, corporate partners, institutions, and other non-profit organizations. These relationships position us to connect individuals and groups in need with those who want to help.

WHY LFFCF SHOULD MATTER TO YOU:

Because you love to fish and you love the places where you fish. By joining LFFCF in our mission, you help to spread the joy of fly fishing by introducing new people to the sport. You also help to protect and conserve the spectacular fisheries that we all get to enjoy.
